"TORONTO - PENSACOLA" 10 IMPORTANT QUESTIONS FOR THE CHURCH!

Now the Lord has BEGUN to cleanse and deliver those who have turned to Him, cried out to Him, put their trust in Him-praise his Holy Name!

There is so much to be done! On every side we see adultery, fornication, homosexuality, drug damage, rock music hypnosis, immune system breakdown, deadly hepatitis viruses, chronic fatigue syndrome (CFS), attention deficiency disorder (ADD) and a hundred and one other disorders, raising their ugly heads. We cannot omit MPD (Multiple Personality Disorder) where some people have claimed on television to have identified nearly 2000 different personalities living within them. Who said the Legion story was a myth? (Mark 5:1-20). Now we have people who have received hypnotherapy suddenly believing they have been the victim of child abuse in circumstances which are highly unlikely. These so-called repressed memory syndrome (RMS) cases are causing heart-rending havoc amongst families.

There is deception, wickedness and infirmity on every side. There are generations of schizophrenia, political hatred, racial hatred in so many of us who call ourselves Christians. Yes, our conversion to Christ was a great start, and yes, our continuing discipleship helps to break some of the evil bonds in our lives, but now is the time - now is God's time - for the perfecting of the saints.

TEN IMPORTANT QUESTIONS

Christian City Church, Sydney recently advertised a question and answer forum on the current move of God. It was a great idea but the sort of questions we would want to ask probably require a solid two-way dialogue in order to be effective. Single questions to a panel can be too easily brushed aside inadequately and unsatisfactorily.

So we take this opportunity to ask the following questions of all the Pastors and leaders that are flowing in Renewal and especially in the "Toronto" blessing:

Do you acknowledge that:

1. not many Christians are living the victorious life we preach about - they are discouraged at having their deep needs swept - and kept - under the carpet - brushed aside with religious rhetoric - they need more than a legal victory - they need to EXPERIENCE victory?
